

ChromSol CDS

The new generation ChromSol intelligent chromatographic data system is based on database technology for efficient and comprehensive management, fully complying with regulatory compliance requirements such as FDA 21CFR Part 11, GMP, GLP, etc. It has rich and powerful instrument control functions, and has been extended to sample pretreatment and precision medical fields. Through dozens of proprietary technologies, the controlled instruments have intelligent interaction, refined processes, and powerful data analysis capabilities, which can effectively guide customers to ensure that the required data can be effectively and accurately completed through simple operations. ChromSol provides multiple versions of deployment, including standalone, enterprise network, and cloud service versions, which can greatly enhance the overall capabilities of customer application laboratories. Through visual dashboards, data monitoring and management, online diagnosis and maintenance, and method library interaction calls can be achieved. Intelligent and user-friendly, reducing errors, and improving overall laboratory efficiency
